

96.3

The highest trap shooting honors for 1906 went to Wm. H. Herr, shooting U. M. C. ARROW SHELLS (steel lined); Mr. Herr shot at tournaments all over the country, and shot at 14,855 targets, breaking 96 per cent of them. This marvelous record could not be made with poor ammunition.

The majority of the money and all the records of the last three Arizona tournaments have been won with U. M. C. and Winchester factory loads.

The U. M. C. Arrow and Nitro Club loads, and the Winchester factory loads, which we handle, are shipped to us direct from factory after being loaded to our order, and are FRESH. Of all the guns blown up in central Arizona last winter, not one was with our ammunition. Why not shoot the best? It costs no more.

THE EMPEROR NICHOLAS HAD A NARROW ESCAPE

Further Details of the Accidentally
Discovered Plot Against His Life.

St. Petersburg, May 16.—Further details of the plot at Tsarskoe Selo against the life of the emperor which came to light on Sunday were obtained today and indicate that the emperor's escape during Passion week was very narrow. The plot was deep laid and the conspirators were members of the emperor's personal court. The arrest of one man, a Cossack sergeant, made it possible to trace the conspiracy back four months and shows that preparations were being made February 2, when the police issued orders to use every effort to identify the purchaser of a uniform of his majesty's own Cossack escort which had been found during a raid. The use of regulation uniforms is a favorite device of terrorists and the Cossack garb is an open sesame to the precincts of the palace at Tsarskoe Selo and Peterhof.

After a soldier who was suspected made a confession yesterday the news went the rounds among the members of the imperial guard. The Cossack sergeant, who was gatekeeper at one of the entrances of the palace, became frightened at possible discovery and also confessed.

The lower house of parliament is taking the keenest interest in the story and it is expected that the leaders of the constitutional democrats only await the official confirmation to introduce a motion expressing joy at the preservation of the emperor's life.

A brother of Premier Stolypin, confirms the report that numerous arrests have been made. He declares that the existence of the plot known from the beginning was ferreted out until the entire plan was uncovered.

FRISCO STREET CARS.

Traffic Conducted Yesterday With Little Disturbance.

San Francisco, May 16.—There were no important developments today in the street railway strike. About 130 cars were in operation over eight lines of the system.

Both the officials of the United Railroads and the Carmen's union express themselves satisfied with the situation. Contrary to the announcement made last night the Geary street line was not operated today.

AUSTRIAN VOTERS.

Who Did Not Vote are to be Prosecuted.

Vienna, May 16.—Emperor Francis Joseph said he was well pleased

with the result of the elections held two days ago for members of the Austrian house of representatives in spite of the victory of the socialists.

The problem of how to deal with the 50,000 voters in Vienna and lower Austria who failed to record their votes, now awaits the government. The new suffrage law makes the exercise of the franchise compulsory and it is said that those who did not vote will be prosecuted and fined.

THE FRENCH MANNER

Of Dealing With An Unsympathetic Municipality.

Besieres, France, May 16.—There was a demonstration this afternoon against the municipal council because of the unsympathetic attitude toward the demonstration of the vine growers held here last Sunday when many thousands of persons demanded that the government take measures to remedy the distress arising from the overproduction of wines and the extensive sale of wines manufactured from grape refuse and sugar.

A number of police fired upon the crowd. The mob then stormed the police station and threw out the furniture and burned it. The police fled but later were reinforced by a number of gendarmes.

Order was finally restored but ten of the rioters sustained serious injuries. At the conclusion of the trouble the municipal council resigned in a body.

A SHORT TREASURER.

His Only Hope An Appeal to the Supreme Court.

San Francisco, May 16.—Unless he should elect to take an appeal to the supreme court, W. M. Amer, late treasurer of Madeira county who was convicted of misappropriation of funds to the extent of more than \$22,000 will be obliged to stand up for sentence.

March of last year he was convicted of embezzlement but a new trial was granted on ground of misconduct by the district attorney who is alleged to have used intemperate language in an argument to the jury.

TWO DAYS' FIGHT.

Between Lone Anarchist and Russian Police Force.

Yekaterinburg, May 16.—A fight of two days duration between the police and what is supposed to be a band of anarchists barricaded in a house has just come to an end.

Two policemen were killed and when an entrance was gained to the house the officers found the body of an unknown man. Single-handed he stood off the police exchanging not less than 200 shots.

WHEAT JUMPS AGAIN ABOVE DOLLAR MARK

The Excitement Almost Equaled That of Last Monday in the Chicago Board of Trade.

Chicago, May 16.—Wheat prices on the Board of Trade again crossed the dollar mark today on a sensational bulge which carried September up to 1.00 3/4 and December to 1.02. At the same time July advanced to 99 1/2.

The upturn was due to reports that the year's crop in Europe and America would be greatly below normal, owing to injury by wet weather and insects. The net gain for the day on July delivery was 5 and 5 1/8 compared with yesterday's final quotations. September option was up to 4 1/2 and December 56 higher.

The pandemonium which accompanied the sensational advance almost equaled that of Monday, when prices made a spectacular ascent beyond the dollar mark. Unlike Monday the passing of the dollar point occurred today within the last few minutes of trading. The combined purchases of a few leading houses during the afternoon, it is said, aggregated between five and seven million bushels.

PREACHER APOLOGIZES FOR MARRYING COREYS

If the Church Will Forgive Him He Will Never Do Such a Thing Again.

New York, May 16.—John L. Clark, pastor of Brunswick Avenue Congregational church and who recently officiated at the marriage of W. E. Corey, president of the United States Steel corporation to Miss Mabelle Gillman submitted to a committee of the church a letter begging forgiveness for having performed the marriage ceremony in question.

Dr. Clark said he realized that he had done wrong by the congregation of the church and to the church's conception of the marriage relation in marrying a divorced person and said he would humbly receive whatever censure the committee might impose. He concluded by promising to use his ecclesiastical office in the future strictly in accordance with the principles of his denomination.

The committee decided to recommend in a report to the congregation that in view of the pastor's integrity and righteousness together with the letter of apology no further action be taken in the matter. Later it was announced that Mr. Clark in his letter had added that he had repaid the fee which was given him at the wedding.

HE SHOT AT A WHITE MAN.

Roanoke, May 16.—Because he fired a revolver at a white man who attempted to stop him while running away from officers in a crowded street tonight, Will Sanders, a negro with a long criminal record was threatened with death at the hands of a crowd of 500 men who followed his captors to the city jail. The mob finally dispersed.

STEPHENSON WINS.

Republican Caucus Nominates Him to Succeed Spooner.

Milwaukee, May 16.—Isaac Stephenson of Marinette, was nominated for United States senator in the republican caucus tonight to succeed John C. Spooner, resigned. He has long been an adherent of La Follette.

LE MARAIS DES CYGNES.

"A blush of roses
Where roses never grew!
Great drops on bunch grass,
But not of the dew!
A taint of sweet air
For wild beasts to shun!
A stain that shall never
Blanch out in the sun!

"Back, steed of the prairie!
Sweet song-bird, fly back!
Wheel hither, bald vulture!
Gray wolf, call thy pack!
The foul human vultures
Have feasted and fled;
The wolves of the border
Have crept from the dead.

"In the homes of their rearing,
Yet warm with their lives,
Ye wait the dead only.
Poor children and wives!
Put out the red forge fire,
The smith shall not come;
Unyoke the brown oxen,
The plowman lies dumb.

"Wind slow from the Swan's Marsh,
O, dreary death train,
With pressed lips as bloodless
As lips of the slain!
Kiss down the young eyelids,
Smooth down the gray hair;
Let tears quench the curses
That burn through your prayers.

"From the hearths of their cabins,
The fields of their corn,
Unwarned and unprepared,
The victims were torn—
By the whirlwind of murder
Swooped up and swept on
To the low reedy fen-lands,
The Marsh of the Swan.

"With a vain plea of mercy
No stout knee was crooked;
In the mouths of the rifles
Right manly they looked.
How paled the May sunshine,
Green Marais des Cygnes,
When the death smoke blew over
The lonely ravine.

"Strong men of the prairies,
Mourn blither and wild
Wall, desolate woman!
Weep, fatherless child!
But the grain of God springs up
From the ashes beneath,
And the crown of his harvest
Is life out of death.

"Not in vain on the dial
The shade moves along
To the point of great contrasts
Of right and of wrong;
Free homes and free altars
And fields of ripe food,
The reeds of the Swan's Marsh,
Whose bloom is of blood.

—John G. Whittier.

AMUSEMENTS

Gladys Van, well known as the original Red Southerner, and familiarly termed "The Dainty Delight of Vaudeville," is again principal of the female members of Murray & Mack's big company of funmakers which appear here at the Dorris Opera House Monday, May 20. She will be seen in many new and novel gowns which were secured during her vacation in France this past summer. The beautiful satin gown worn by Miss Van in the second act is considered by competent lady tailors as the handsomest ever imported from France, and the duty paid on it would almost keep an ordinary girl in dresses for a year. On certain matinee performances Miss Van allows her gown to be placed on inspection so the ladies can view what is considered the fashion plates of Paris. Ollie Mack has fully recovered from his serious illness and the report of his death was false. His mother died about the same time he was reported ill, and thus, perhaps, the report of his death started. He will be seen on this visit as "Roger Sweeney." The part was played by his understudy on their previous visit.

The concert to be given next Sunday night at the Hardwick theater by the Chas. Steinberg German Comedy Co., will be in the nature of a musical treat that none should miss. The program consists of twelve numbers, chief among them will be selections from popular German operas sung by Miss Bertha Fischer, a graduate of the Leipzig conservatory of music. Mr. Frank Dale, late of the Olympia Opera company, will contribute some choice English songs to the enjoyment of the evening. Mr. Charles Steinberg will appear to great advantage in various comedy roles. Those fortunate enough to be present on this special occasion will always count it as one of the most pleasant evenings spent in years.

DAY OF NO TRADING.

The Greatest Stock Market in the World Was Stagnant.

New York, May 16.—Stagnant conditions continued to be revealed today in the greatest stock market in the world and the number of transactions was so trivial as to have no significance as to the price movement which was due almost wholly to the shifting operations of the small professional class.

An effort to extend the sensation, caused by the publishing of what purported to be the report of the interstate commerce commission yesterday, into today's dealings was unsuccessful. A weakness of Chesapeake and Ohio was attributed to rumors of a forthcoming note issue.

KUROKI AND THE CADETS.

Entertainment of the Japanese General at the Military Academy.

West Point, N. Y., May 16.—Rain this morning was not permitted to interfere with the entertainment of General Kuroki on his visit to the military academy. The party rode to the service plain, where they witnessed drills, artillery practice and field calisthenics by the cadets.

FOR OVER SIXTY YEARS.

Mrs. Winslow's Soothing Syrup has been used for children teething. It soothes the child, softens the gums, relieves all pain, cures wind colic, and is the best remedy for Diarrhoea. Twenty-five cents a bottle. Guaranteed under the food and drugs act, June 30th, 1906. Serial number 1098.

PRESBYTERIAN CHURCH.

The Opening of the General Assembly at Columbus, O.

Columbus, May 16.—Rev. Wm. H. Roberts, of Philadelphia, for fourteen years stated clerk, today was unanimously elected moderator of the nineteenth general assembly of the Presbyterian church at the opening session, following the delivery of the annual sermon by Rev. Ira Landrith of Nashville, moderator of the last Cumberland Presbyterian assembly.

More than 900 delegates answered the first roll call and several thousand visitors attended. The key note of Rev. Mr. Landrith's sermon at the devotional service this morning was an appeal for concerted effort toward a complete union of the church.

The communion of the Lord's supper was celebrated tonight by the assembly. The moderator announced that Rev. Charles Manton of Paris, Texas, would act as vice moderator.

THE SUBMERGENCE TEST OF THE TWO SUBMARINES

They Remain at the Bottom Twenty-four Hours and Could Have Stayed a Month.

Newport, R. I., May 16.—With all hands well contented, with more than a bountiful supply of fresh air, with records of submergence broken, the submarines Octopus and Lake rose to the surface of Narragansett bay at 4 o'clock this afternoon, ending the test of twenty-four hours under water.

The Octopus rose first and the members of the naval trial board crowded about her as the conning tower hatch flew open. The members of the trial board at once went aboard to see what condition existed on board and also to test the air supply. Samples of the air were bottled every two hours for test by analysis by the board.

The Octopus blew out foul air only twice during the 24 hours she was at the bottom of the bay. It is computed that only one-fifth of the air supply was exhausted and if these figures are correct they tend to show that the boat could have remained submerged thirty-five days, provided the food and fuel supply was sufficient. The Lake also stood the test well, although a leak was sprung in her superstructure. She was pumped out twice, but what proportion of her air supply was exhausted could not be learned.

WATCHED BY SPIES RUSSIAN SOCIALISTS

A Meeting in London Planning Against the Peace of the Czar.

London, May 16.—Fully aware that every movement is watched by spies the members of the Russian Social congress is now in session here, taking every precaution to insure the secrecy of their deliberation.

In order to avoid the necessity of going out to lunch thus giving outsiders a chance to approach them, they have installed a buffet in the chapel where they meet and here they sit all day long listening to speech after speech, and engaging in debates. They have developed an aversion to having their photographs taken and try to avoid camera flashes by hiding their faces as they pass from the building.

The majorities or the extremists faction who lost control of the party several years ago, preach a complete overthrow of the existing regime in Russia by an armed uprising. The minorities, on the other hand, believe that this end can be attained by a suc-

PRESIDENT OF HONDURAS WILL TRY IT AGAIN

Bonilla Will Make His Way Back to His Country and Seek to Regain the Presidency.

Galveston, May 16.—General Bonilla the expelled president of Honduras arrived from Progresso, Mexico, on the Norwegian steamer Motina this morning. The vessel will be released from quarantine at noon tomorrow at Texas City whence the former president will come to Galveston where he expects to remain several days. Although Bonilla stated today that he is in search of health he said he would make his way from Galveston to New Orleans where he would board a vessel for British Honduras going thence to his own country where he expects again to find enough friends to reinstate him in the presidency. This afternoon a newspaper reporter was allowed to board the steamer and through an interpreter asked and received answer to numerous questions concerning Central American conditions.

Bonilla was guarded in many of his replies but was outspoken in defense of Honduras' position in the recent war. While favorable to a confederation of Central American states with a strong central government, he stated today that he did not believe such a form of government was possible at the present time.

Galveston, May 16.—The steamer Hilonian bound for San Francisco when passing out of this harbor today struck a reef on one side of the channel. She was assisted by the tug Intrepid and after half an hour's delay, proceeded on her voyage. The accident was caused by foghorn becoming entangled with the vessel's screw.

Honolulu, May 16.—The steamer Hilonian bound for San Francisco when passing out of this harbor today struck a reef on one side of the channel. She was assisted by the tug Intrepid and after half an hour's delay, proceeded on her voyage. The accident was caused by foghorn becoming entangled with the vessel's screw.

Washington, D. C., May 16.—(Special.)—Chas. D. Chamberlain has been appointed postmaster at Quartzsite, Ariz., vice E. F. Skadam, resigned.

Shanghai, May 16.—Thousand of women, children and aged persons who are dying of starvation in the streets of Sing Klan Pu were placed yesterday in a camp outside the city and are now being fed by the relief organizations. Famine fever is spreading. Funds sent within the last seven days will prevent the cutting of unripe grain.

Helsingfors, May 16.—A revolutionaries arsenal containing a large supply of bombs has been discovered at Heapala, a village in Finland, close to the Russian frontier.

London, May 16.—The monument to the late Lord Curzon, which is a source of profit to the city corporation, says the Pall Mall Gazette. The actual surplus for the current year is placed at about \$500. The toll charged to visitors appear at \$2.00 and the sale of the booklet is estimated to produce \$70. On the other side of the account, internal painting will cost \$500, and gas and water \$60 and \$250, respectively, while wages and clothing will absorb \$1,200, and the grant to the pension fund is \$225.

A Coffee Fact!!

Many Highly Organized People

Are Definitely and Distinctly

Diseased by Coffee

Not with all people, but many, particularly those highly organized—brain workers and their kind—the alkoid—caffeine—contained in ordinary coffee, has a direct action upon the delicate nerves of the stomach, and by a pathological law the nervous system is gradually and surely affected.

The result will show in a variety of ways, such as headaches and bowel or kidney trouble in some people; in others, smothering sensations about the heart, dyspepsia, etc., and in many the power of the brain is impaired.

Different people will be affected differently, but common sense should teach that if you have any disease symptoms of disease you should endeavor to locate the source and cause.

It's useless to take medicine and at the same time continue the use of some injurious article of food or drink that not only caused the disease but continues it from day to day.

Leaving off coffee takes away the cause and the natural food elements obtained by long boiling of

Postum Food Coffee

go instantly to replenish and rebuild the delicate gray matter in the nerve centers throughout the body.

Mental poise and sturdy physical health can be turned into wealth, fame and happiness.
